

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

Grade-level administrators and counselors identify students to the summer school program called 5th marking period through a review of final course grades. Students who are failing multiple core classes are targeted for this credit recovery opportunity at the beginning of each

summer. This is not an opportunity for students to improve grade, however it is an opportunity for students to earn credits for course failed during the school year. Students who are in need of additional supports like special education students are provided additional supports during the summer. Students who have already participated in BANK tutoring, in-class supports, and after-school opportunities that are targeted in this program.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

- 2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	193	-small group tutoring- individual supports- support from a certified teacher- formative assessment for securing identified weaker skills

- 3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

Support is provided by certified, subject-specific teachers and includes small group instruction, tutoring, and one-on-one support for students. Students access their content through our Learning Management System (LMS) Schoology, Edgenuity online lessons, provided skill lessons and packets and provided areas of identified need for students within core classes.

- 4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
11	Internal Provider	teacher

- a. The LEA assures it understands it is responsible to offer the work to its internal employees

prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
formative assessments by content	daily	gained skills
formative and summative assessments	weekly	gained skills and credit recovery

6. How will the LEA engage families in the summer school program?

Contact is made to parents prior to starting the after school program via phone calls from grade-level principals and letter describing program and program’s expectations. Teachers and principals during the program communicate success or lack thereof to families. Communication with parents occurs through the Learning Manage System (LMS) Schoology through direct messaging. Additionally, communication occurs through online grades, updated work-completed sections and progress reports sent home via US Mail. Final reports are sent home to families explaining student success or lack thereof.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$196,378.00
Allocation
 \$196,378.00

Budget Over(Under) Allocation
 \$0.00

Budget Summary

Function	Object	Amount	Description
1400 - Other Instructional Programs – Elementary / Secondary	100 - Salaries	\$164,000.00	salaries for the summer school teachers at the contracted rate for 3 years
1400 - Other Instructional Programs – Elementary / Secondary	200 - Benefits	\$32,378.00	benefits for the teachers for 3 years
		\$196,378.00	

Section: Budget - Support and Non-Instructional Expenditures

Support and Non-Instructional Expenditures

Budget
\$196,378.00
Allocation
\$196,378.00

Budget Over(Under) Allocation
\$0.00
